Workable Experience

Quaomiuzzaman Kabbya

Full stack Developer

I have been learning web programming for the last 4 years. I like web programming. I learn web programming from documentation, udemy and other popular websites like laracost, stack overflow, etc. I think I have everything you are looking for in this position. I like to work on laravel, tailwind CSS, and Vue.js. I also know jquery ajax. bootstrap. I have completed more than 6 design and development web projects. I also like to solve problems and minimize code. I face so many problems but I solve every problem within 1 day.

○ Internship

2022 (only one month can't complete internship)

Incevio Team

○ Experience

Fiverr

I completed some work from some marketplace for email template design and web design. I have some experience working with people from some countries.

Local

I work on two development projects as a helper.

And I worked on two websites with Vue.js and Vuex.
